

On a Royal Caribbean® cruise, getting there is only half the fun when sailing to amazing destinations. Help your group experience the best of every port through our shore excursions program. With options like outdoor adventures, cultural explorations, other fun activities and custom possibilities, our dedicated group-sales specialists are ready to assist with all types of groups.

Why book your group shore excursions with us?

- We work with the best tour operators in the industry around the world. Book with confidence, knowing your clients are in excellent hands.
- We get personal. Our team will book a private tour for your group, modify excursions to suit their interests, or design fully customized experiences.
- We're international. Let us secure guides who speak your clients' language.
- Our services go beyond the sailing, with embarkation-day or last-day tours that include airport/luggage transfers. We also organize custom tours from home-port hotels for clients before or after the cruise.
